

Legacy of the Force: Recollections

Exile

Andrew: I don't remember much about this book.

Ryan: Do what you always do and make crap up.

Andrew: Oh, right. I forgot I could do that.

Jacen is on the bridge of the Anakin Solo. Leia comes out of nowhere and breaks the window, sending them flying into space.

Leia: I never told you about your father.

Jacen: But Han's my father.

Leia: No, Jacen. You're adopted!

Jacen: Nooooooooooooo.

Later:

Ben: It's my birthday and I'm stranded on Ziost and it's raining. I'm sad.

Ship: I'm a sentient ship.

Ben: Cool.

Much, much later:

Klauskin: I'm in your ship, killing your dudes! Commenor rules!

Andrew: Wait, one man killed everyone on a capital ship with his hacking skills?

Klauskin: I'm a war hero now! Just like Geoffrey Pyke!

Slightly later:

Jacen: Oh no! Space mines! Hey, look, it's my parents. Shoot down the Millennium Falcon!

The Millennium Falcon is hit by a turbolaser. There's a hole in the wall that's sucking out all the air, but Han turns into MacGuyver and fixes it.

Leia: Cakhmair and Meewalh are dead!

Han: Who?
