

## Legacy of the Force: Recollections

### Invincible

Luke: You're the Sword of the Jedi. Now go kill your brother.

*Jaina slices Jacen's arm off.*

Jacen: This kind of sucks.

*Meanwhile, in someplace I'd rather not be at the moment:*

Tahiri: Hey, Ben. Wanna make out?

Ben: Uh... I'm fourteen and you're in your thirties.

Tahiri: So?

Ben: How about no?

*Meanwhile, somewhere else:*

*Jaina kills Jacen. Finally.*

Jacen: Aww... just when I was getting to be a convincing villain.

Han: That kind of sucks.

*Meanwhile, in clicheland:*

Leia: Nanoviruses are killing everyone! Well, actually, they're only killing Hapans, so it's no big loss. Still, we should be afraid because they have the word "nano" in their name!

*Previously, on To Catch a Predator:*

Tahiri: Hey, Ben...

Ben: Are you trying to seduce me **again**?

Tahiri: Maybe.

*Police burst through the door and take Tahiri away in handcuffs.*

Luke: We need someone to be the new leader of the galaxy.

Leia: But every Chief of State for the last twenty years has ended up being assassinated. You'd have to be insane to willingly take that position!

Daala: I'll do it!

*Meanwhile, in authorland:*

Andrew: OH TROY DENNING WHY?

Ryan: Look at it this way... it may be bad, but at least it's short.

Andrew: Yeah. Still, I can't believe they're trying to sell a pamphlet in hardcover form.

George Lucas: Let's make money angels!
